

# identityfinder Home Edition

## Identity thieves can find your personal information! Can you?

Computers are frequently under attack from hackers, viruses, and other threats. No matter how strong your defenses, eventually one of them will get onto your system. Identity Finder Home for Windows and Mac puts you steps ahead of criminals. It intelligently searches your computer to help you find all confidential data and provides the tools to protect it. Now you can find your personal information before identity thieves.

### Prevent Identity Theft

Search | Shred | Scrub | Secure

#### Search

Social Security Numbers

Credit and Debit Card Information

Bank Account Information

Passwords / Pins

Driver Licenses

Dates of Birth

Phone Numbers

E-Mail Addresses

Personal Addresses

Passport Numbers

Mother's Maiden Names

Worldwide National ID's

#### Shred

Scrub / Redact\*

Secure / Encrypt

### Prevent Identity Theft

Every 2 seconds, someone becomes a victim of identity theft. Over 11 million Americans' identities were stolen last year and the average fraud is estimated to cost each victim \$500 and 30 hours of time spent to resolve the problem. Over \$50 billion in total annual fraud was reported last year. A main cause of identity theft is stolen SSNs, credit card numbers, and other personal information. Identity Finder finds and protects this information before it's too late.

### Find Personal Information

**Files (Windows and Mac):** Microsoft Office Files (Excel, Word, PowerPoint) • Adobe Acrobat PDF Files (up to and including 9.x) • Compressed Files (zip, gzip, tar, rar, z, bzip) • Web Pages • Rich Text Format Files • Plain Text Files (Web, Cookies, Instant Messenger Logs)

**E-Mails and Attachments (Windows Only):** Microsoft Outlook • Outlook Express and Windows Mail • Mozilla Thunderbird

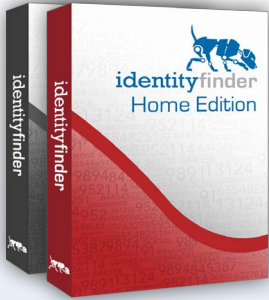

**System Areas (Windows Only):** Internet Explorer and Firefox (Saved Passwords and Form Data) and the Windows Registry

### Protect Your Privacy

With the help of proprietary search algorithms, Identity Finder automatically finds any personal information and confidential data on your computers – even when you don't know it exists. The results are then presented to you to permanently shred, scrub\*, or secure with encryption.

\*Scrub feature only available on Identity Finder for Windows

# Home Edition

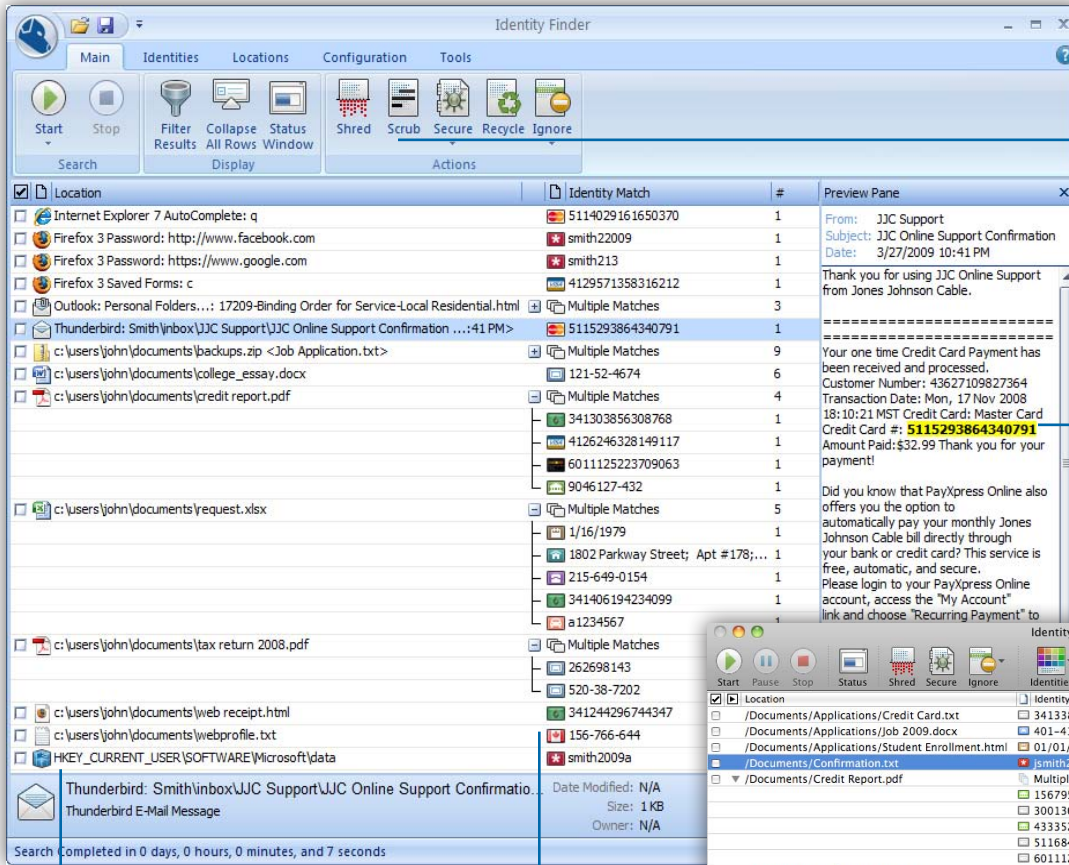

## Identity Finder Home for Windows and Mac

Identity Finder Home Edition brings enterprise-level security to personal desktops. Many large organizations use Identity Finder to find sensitive information and secure it. Now you can use the same technology to protect a home computer. The AnyFind™ engine automatically discovers sensitive information stored on PCs. Beyond identification, Identity Finder helps clean matches by offering tools for shredding, scrubbing, and securing data with encryption. Identity Finder is simple to use yet full of powerful features.

### Requirements:

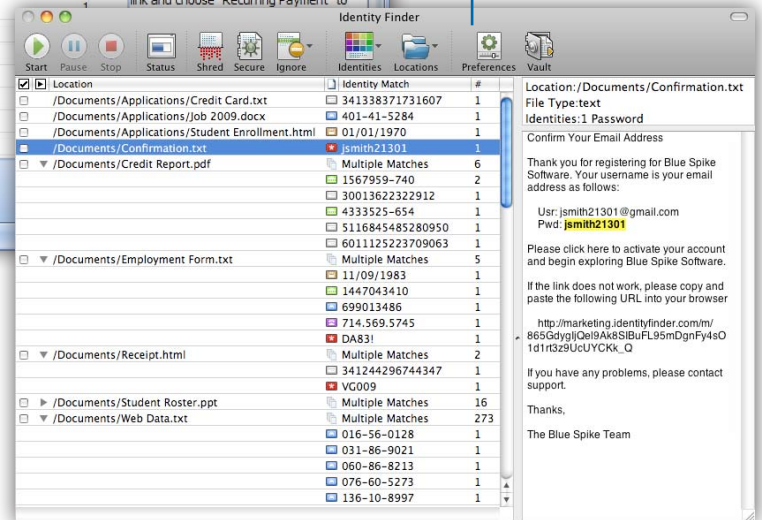

Windows 7, Vista, XP; Mac OS X (Intel) Snow Leopard, Leopard, or Tiger (10.4.2 or higher). 25mb hard drive space.

Many tools such as Shred or Encrypt to protect sensitive data anywhere on your computer.

See how easy it is to analyze your results and view exactly where, and in what context, potentially dangerous information is being stored.

Mac version now available!

Search any file as well as e-mails and system areas of Windows computers.

AnyFind technology automatically finds personal information such as SSNs, Credit Cards, Passwords, etc.

### About Identity Finder

Identity Finder, LLC was founded in 2001 by innovative security experts. Its security and privacy technologies provide businesses and consumers the ability to prevent data leakage and identity theft. The company has quickly grown to become a leader in identity theft prevention by helping millions of consumers, small businesses, and enterprises in over fifty countries.
